

Business development programs :

- In order to satisfy your request, we can rely on the other group subsidiaries. Our Cebu plant (Philippines) has a range of injection molding machines as well as automatic and manual assembly lines. In support of engineering, the Pforzheim location (Germany) can bring its know-how to the industrialization of the assembly of different modules. All this additional activity will be managed by Fralsen in Besançon which will ensure quality and delivery of the finished product.

2017 News :

- Purchase of an electric press JSW 35T

Our workshops :

Screw Machines (82 M/c)

Gear Cutting (55 M/c)

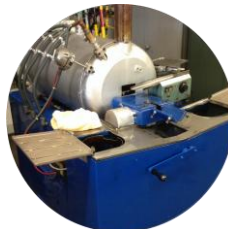

Plastic Parts (27 M/c)

Blanking (10 M/c)

Plating Line

Heat treatment (hardening and tempering)

Tribofinishing

Quality :

- ISO 9001:2015 Certification in progress.

If you want to meet us, we will be at Midest, Hall 6 Stand H195.

M. Sylvain TATU, General Manager
