Our activity fields

Micromechanical – Connector

Watch – Defense – Aeronautical

Business development programs:

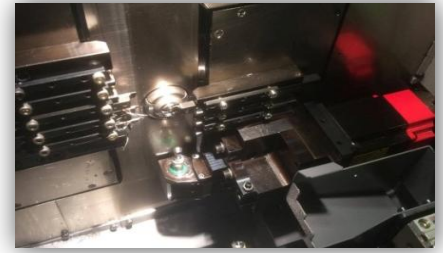

In order to satisfy your request, we can rely on the other group subsidiaries. Our **Cebu** plant (Philippines) has automatic and manual assembly lines. In support of engineering, the **Pforzheim** location (Germany) can bring its know-how to the industrialization of different modules's assembly. All this additional activity will be managed by Fralsen in **Besançon** which will ensure quality and delivery of the finished product.

Latest news:

Purchase of :
an electric press JSW 35T
a gear cutting machine U38B-SL
for CITIZEN R04 VI

Our workshops:

Screw machining (82 M/c)

Gear cutting (55 M/c)

Plastic injection (27 M/c)

Blanking (10 M/c)

Plating Line

Head Treatment (hardening and tempering)

Tumbling

Quality :

ISO 9001:2015 Certification in progress.

If you want to meet us, we will be present at the EPMT fair **Hall 2 Stand J80**, from 20 to 23 June in Geneva Palexpo.

M. Philippe URLACHER, *Business Development Manager*
